

COMPANY OVERVIEW

From o’rings to rubber mats large enough to cover any vessel deck Universal Gaskets has the capability to create a custom solution to any of your problems. Since 1941 Universal Gaskets has been a competitive face in the sealing industry and through continued growth and investment in new technology and training, we have thrived and continue to be a strong force within this sector. Universal Gaskets is an Australian family-owned business with over 100 years of combined industry experience. Universal Gaskets is also an equal opportunity employer supporting disability, retiree re-hire and boasts a higher female to male employment ratio.

CAPABILITIES

- **A warehouse and factory floor over 1400m²**
- **An increasing range of machines –** we are constantly reinvesting in new machinery and technology to reduce production time and increase accuracy
- **Extensive range of over 2000 materials –** choose from our wide range or bring us your own material to cut
- **Quick turn around and excellent on-time delivery –** ability to manufacture products within an hour in breakdown situations
- **Product development and prototype capability**
- **Single point contact with expert advice**
- **Quality fit for purpose products and competitive prices for small to large jobs**

DISCRIMINATORS

“REP IT” The Regional Expansion Program Universal Gaskets is currently investing in is a supply and education program to help reach clients in more regional parts of NSW and interstate. This program is designed to maintain a fast and reliable supply chain and therefore reduce facility downtimes.

This is done by:

- **Client Education** – spending time on site with clients to assess their needs and evaluate their onsite stock holdings.
- **Reseller Engagement** – Educating local stockists on their clients' needs and working with them to ensure supply of stock runs smoothly.
- **Courier Review** – Monthly review of couriers to ensure scheduled deliveries are on time and urgent orders are being delivered in the fastest timeframes.
