

UNIVERSAL GASKETS

Gasket & Seal Manufacturer for all Industries

Welcome To Universal Gaskets

Since 1941 Universal Gaskets has been manufacturing flange gaskets, diaphragms, heat shields, electric insulators, seals, spacers, packers, slip pads, filters, washers, and other shapes for industry. Our customers are manufacturers, wholesalers and service providers in many sectors including transport, petrochemical, food and beverage, healthcare, electrical, HVAC/R, mining, defence, marine, and many others. We sell nationally and export to Oceania, SE Asia, India and around the globe.

We manufacture to order; however, we offer short delivery times as we stock an extensive range of materials and employ a wide variety of machine tools and tooling and expert staff to operate these machines. In an emergency we can design and produce the product and dispatch it within hours. Universal Gaskets continually invests in tooling to ensure that we can offer a manufacturing capability that is focused on the efficient and timely production of high-quality gaskets, seals and related products.

The staff of Universal Gaskets have extensive industry experience, are quality focused and have quality customer service.

We are able to offer our customers:

- A comprehensive range of high-quality gasketing materials
- A large range of quality gaskets, seals, and related products
- Design and production of customised products and shapes
- Quick turn around and excellent on-time delivery
- Competitive pricing for orders of any quantity
- Recommendations that are fit for purpose
- Product development and prototyping
- No fuss low touch transactions

We manufacture gasket and seals from over 2,000 unique mechanical, electrical and food grade materials, a large proportion of which we keep in stock. Universal Gaskets stock high quality materials to ensure high customer satisfaction and high-quality products.

Examples of the 2000 materials we work with and hold stock of:
